Admission	PARTIAL	Route: admissions.js · Frontend: pages/admissions · Enquiry list, student screening flow, email invite from class page	No admission category/priority masters · No call follow-up system · No online application portal · No bulk application link sender · No bonafide/TC flow yet
Student	PARTIAL	Route: students.js · Frontend: pages/students · Student list, profile, fee category assignment, basic reports	No promotion/TC workflow · No gate pass · No income tax certificate · No bulk update · No sibling report · No participation tracking · No parent portal access toggle
Staff	PARTIAL	Route: staff.js · Frontend: pages/staff · Staff list, profile, basic absent summary	No evaluation criteria · No syllabus updation · No staff history · No event management · No bulk update · No staff usage analytics
Fees	PARTIAL	Route: fees.js · Frontend: pages/fees · Fee collection, basic receipt, concession request, payment scheduler shell	No Razorpay integration · No lumpsum fee config · No bus/hostel fee structure · No refund workflow · No day closure · No donation fees · No GST master · No concession approval workflow
Examination	PARTIAL	Route: examinations.js · Frontend: pages/examinations · Exam planning, mark entry shell, basic progress card config	No other exam (NEET/JEE) · No ASL report · No progress card generation PDF (endpoint exists but not wired) · No result analysis · No teacher performance report · No HPC · No TOS
HPC	MISSING	—	Entire module absent — Rating master, curriculum areas, assessment entry, HPC report card
TOS	MISSING	—	Entire module absent — Topic master, paper configuration, effort marks, evaluation areas, comment categories
Timetable	PARTIAL	Route: timetable.js · Frontend: pages/timetable · Basic timetable structure present	No auto-generation algorithm · No substitution management · No staff rules engine · No backup/restore · No combined subjects · No online TT for portal
Attendance	PARTIAL	Route: attendance.js · Frontend: pages/attendance · Mark attendance, basic report	No attendance configuration screen · No reason master · No automated SMS triggers · No late mark rules · No period-wise attendance
Transport	MISSING	Route: transport.js exists (backend only — no frontend page)	No vehicle master UI · No driver management · No boarding point master · No route assignment · No transport dashboard · No vehicle document tracking
Hostel	MISSING	—	Entire module absent — student enrollment, fee linkage, paid/unpaid reports
Digital Secretary	PARTIAL	Claude API integrated (claude-sonnet-4-6) · Analytics route present · AI-powered insights in dashboard	No dedicated Digital Secretary dashboard · No structured AI query interface · No document generation via AI
Communication	MISSING	Route: communications.js (backend only — no frontend page)	No SMS gateway config UI · No email SMTP setup · No fee pendency SMS · No scheduled SMS · No SMS report · OTP provider not configured

Module	Status	What We Have	What's Missing / To Build
School Info / Masters	MISSING	Route: schools.js (backend only — no frontend page) · Some data seeded in migrations	No class master UI · No subject master · No board/term/level master · No holiday calendar UI · No academic year creation flow
Admin / Configuration	PARTIAL	Route: auth.js · User login, JWT, role stored in DB · Admin CMS page	No full RBAC screen permission system · No role authorization matrix · No audit trail · No activity logs · No user activity reports · No branch master UI
Reports	PARTIAL	Route: reports.js · Frontend: pages/reports · Fee outstanding, attendance summary, EOD collection wired to UI · Marksheet PDF endpoint exists	No consolidated collection report · No head-wise reports · No abstract/invoice · No admission reports · No staff reports · Marksheet PDF not called from frontend
Library	MISSING	Route: library.js (backend only)	No book catalog · No issue/return workflow · No fine management · No library reports (Chalo also lacks this — unique to our plan)
Payroll	MISSING	Route: payroll.js (backend only)	No payroll processing · No salary slip generation · No PF/ESI · No payslip reports (Chalo also lacks this — unique to our plan)

Key Insight: Our platform has backend routes for 15 modules but frontend pages for only 10 (admissions, attendance, auth, dashboard, examinations, fees, reports, staff, students, timetable). Library, payroll, transport, communications, and schools have no frontend pages yet. HPC, TOS, and Hostel are entirely absent even in backend.

Critical Missing Infrastructure: OTP provider not configured (SMS auth) · FCM/WhatsApp not integrated · No cron jobs for scheduled SMS/reports · Razorpay not wired to fees UI · audit_logs table exists but no UI · UUID dropdowns for class/section not fully populated.

Priority Build Roadmap (based on gap analysis)

Priority	Module / Feature	Reason	Effort
 P1	School Info Masters (Class, Subject, Term, Holiday UI)	Blocks all other modules — needed for dropdowns everywhere	Medium
 P1	Fee Collection — Razorpay + Receipt PDF	Core revenue feature; backend exists, needs gateway + PDF	Medium
 P1	Communication — SMS gateway config + fee pendency SMS	Schools depend on SMS heavily for attendance & fee alerts	Medium
 P2	Student — Promotion / TC workflow	Year-end critical; missing completely	High
 P2	Examination — Progress card PDF (wire existing endpoint)	Endpoint exists; just needs frontend call + template	Low
 P2	Reports — Consolidated collection + head-wise reports	Accountant daily need	Medium

Priority	Module / Feature	Reason	Effort
 P3	Transport — Vehicle master + driver UI frontend	Backend exists; needs UI only	Low
 P3	Admin — RBAC screen permission matrix	Multi-school deployment requirement	High
